Project Summary

The project will help to meet the expectations of the RDPE LEADER Coast Wolds, Wetlands and Waterways (CWWW) LDS as approved by the Regional Development Agency. The overall aim of the project is to provide key delivery support for the RDPE CWWW LEADER programme 2007 – 2013. This project is seen as an essential element to enable the planned programme of activity to be developed and delivered in line with the CWWW Local Development Strategy (LDS). The project will provide training and capacity building support to the Local Action Group, applicants for funding and funded project activity. In addition, targeted support for areas that have not benefited from LEADER+ funding in the past is a recommendation from Yorkshire Forward. This project has been designed to provide such focussed and targeted support.
