| NEYEDC in-kind funding - | <u>£4,900</u> |
| Total | £41,810 |

Start Date: November 2009

End Date: December 2010

Lead Organisation: North and East Yorkshire Ecological Data Centre

Location: Phase 1 East Yorkshire

Location of Project Manager / Registered Office: YO1 7JF

Project Summary

Shared Habitat Allocation for Rural Enhancement and Development (SHARED) Vision - Pilot Project

This project has been developed through an existing partnership comprising the North and East Yorkshire Ecological Data Centre (NEYEDC) and East Riding of Yorkshire Council (ERYC). It will build on continuing work to audit, survey and map the natural heritage and landscapes of the East Riding of Yorkshire, to provide the framework for an evidence base to specifically inform the LEADER CWWW. The evidence base will help to build a greater understanding and appreciation of the natural heritage, landscapes and biodiversity of the LEADER CWWW area, on a parish-by-parish basis. It will also provide a tool to identify natural heritage priorities on a local level and target and evaluate actions under the LEADER CWWW programme.

Phase 1 – of the project will undertake the technical collation and analysis of existing data, and build web-based tools for dissemination. Phase 2 – of the project will widen participation in the development of the evidence base and of data products which inform and support non-specialists with an interest in the natural resources of the LEADER CWWW, leading to deeper understanding, appreciation and engagement.
